ABSTRACTED-PUB-NO: AU 9170923A

BASIC-ABSTRACT:

Therapeutic compsn. (I) comprises DMSO, CuSO<sub>4</sub>, MgSO<sub>4</sub>, filler and water.

Pref. (I) comprises 1.0-6.0 (pref. 2.0) wt.% DMSO, 1.0-4.0 (pref. 2.0) wt.% CuSO<sub>4</sub>, 20-60 (pref. 30) wt.% MgSO<sub>4</sub>, 20-60 (pref. 30) wt.% kaolin and balance water.

USE/ADVANTAGE - (I) is useful for treating strains, sprains, general soreness and inflammatory conditions, esp. in racehorses. The effects of the treatment are rapid reduction in soreness and swelling and a conditioning of the horse for running at its maximum potential. Synergism is shown whereby the anti-inflammatory properties of the DMSO are undiminished but there is a significant redn. in heating of the affected region. The unpleasant characteristics of DMSO are completely masked and the prod. can be safely used without detriment to the user or animal.

ABSTRACT

The title poultice was prepared for the treatment of strains, sprains and inflammatory conditions. A horse having sore front shins was topically treated with a composition containing DMSO 20, CuSO<sub>4</sub>.7H<sub>2</sub>O 20, MgSO<sub>4</sub>.7H<sub>2</sub>O 300, kaolin 300, and water 360 g/kg for 7 days. At the end of the treatment the swelling was reduced to zero and the horse showed no sign of soreness and was in peak condition.
